Kirubel Lemma

IT Support Specialist, Network Administrator and System Administrator

Phone : +251913868489
E-mail : kirubellemma13@gmail.com
Address : Akaki Kality, Addis Ababa

Objective

To obtain a challenging and rewarding role that allows me to expand my knowledge and skills while making a meaningful contribution.

Personal Information

Gender : Male

Nationality : Ethiopian

Date of Birth : 20.02.2001

Education

Admas University   Sept 2019 – Jul 2023
BSc in Computer Science
• I graduated with great honor with a 3.94 GPA and scored 64 on the national exit exam. I learned programming languages: C++, Java, and Python. I learned web development: HTML, CSS, JavaScript, and PHP. I learned network simulation with the Cisco packet tracer. I learned creativity, teamwork, time management, and leadership skills. I worked on a dual-axis Arduino-based solar tracking system with charging system and Android application management as a final project.

Experience

Junior Network and System Administrator   Dec 2023 – Continue
Hagbes PLC
• I configured and managed routers (Cisco, TP-Link, and Linux-based, like OPNsense). I configured a Layer 3 manageable switch (UniFi). I configured a Linux-based mail gateway server called Proxmox Mail Gateway. I managed a data center and ensured availability, health, and security. I provided technical support regarding network issues of computers, IP cameras, and printers. I worked with different departments regarding common goals. I worked with a team that worked on network installation and configuration of routers and switches for the company's new building.

Intern as an IT Trainee   Jun 2022 – Aug 2022
Horizon Addis Tyre S.C.
• I learned about servers, routers, and switches. I learned about types of network cables and management. I learned how to install operating systems. I learned how to prepare network cables. I learned how to adapt to a work environment. I worked as a network administrator for a specific department in the company for two weeks.

Achievement

Programming Fundamentals nano-degree
• I had learnt fundamental concepts of HTML, CSS, and JavaScript as a part of Ethio-Coders programme.

Android Developer Fundamentals nano-degree
• I had learnt fundamental concepts of Android development as a part of Ethio-Coders programme.

Operating System Basics Badge
• I attended an online course at Cisco Networking Academy and obtained a badge in August 2023. I learned about basic operating system types and features. Also Windows operating system types, commands, and features.

Computer Hardware Basics Badge
• I attended an online course at Cisco Networking Academy and obtained a badge in July 2023. I learned basic computer hardware types, functions, and installation. Also, I learned basic troubleshooting of hardware, like boot problems, CMOS battery changes, and internal hardware cleaning.

Cyber Threat Management Badge
• I attended an online course at Cisco Networking Academy and obtained a badge in July 2023. I learned how to manage a daily cyber threat using different cyber security measures.

Introduction to Angular JS Certificate
• I attended an online course of Great Learning and obtained a certificate in August 2023. I learned basic web development with AngularJS.

Project Detail

Network re-structure for Hagbes Head Office
• I worked with a network and system administrators team by re-structuring the network infrastructure that had been deployed by a better and optimized way by the request of the owners.

OPNsense Firewall router
• I worked on a Linux-based open source router with VLAN, NAT, URL filtering, and Antivirus configurations.
